DETAILED ACTION

Allowable Subject Matter

1. Applicant's amendments filed on 8/13/04 have been fully considered and are persuasive.

2. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention is deemed allowable over the prior art of record as the prior art fails to teach or suggest wherein the interrupt prioritization level is assigned to specific storage locations of the first and second storage device, the interrupt prioritization level of the plurality of hardware-generated interrupt sources coupled to the first storage device being permanently assigned, but assignment of the interrupt prioritization level of interrupt sources associated with the second storage device being variable by software control in combination with other limitations as recited in independent claims 1 and 9 and further in view of the specification and applicant's arguments.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
